

Rhodos Base

Concentrated base fertiliser

EC Fertilizer
15-0-0

The foundation of the Rhodos line, Rhodos Base is a comprehensive nutrient solution tailored to support plants throughout the plants entire life cycle. This versatile formula with a high level of nitrogen, ensures your plants have access to all the essential macro and micronutrients they require from seedling to harvest. Its carefully balanced composition encourages robust root development, strengthens plant structure, and enhances overall vitality, creating an optimal environment for plant development.

Nutrient schedule

Dissolve in 100 L water	Clone	Vegetative	Bloom
Rhodos Base	65 gr	100 gr	100 gr

The figures in the schedule represent the amount of grams of Rhodos Base that should be added to **100 L of water** in the corresponding phase.

Application instructions

Water Quality Starting with clean water, preferred to start with osmosis water. If using tap water, ensure the starting EC is below 0.4 mS/cm.

Initial Mixing Dissolve Rhodos Base in water according to the recommended mixing ratio found on the grow schedule. Use warm water (20/25 °C) for faster dissolution. Whether a Mixer or pump is used for mixing, always make sure powders are 100% dissolved before feeding your plants.

Check pH level The pH-balance is crucial. Test and adjust your nutrient solution pH to the optimal range (Coco/rock wool pH vegetative: 5.5-5.8 Bloom: 5.8-6.2) or (Soil pH vegetative: 5.9-6.2 Bloom: 6.0-6.4) before watering you plants.

Application Method Water your plants directly from your water reservoir. In case of a feeding computer, refer to the Rhodos Stock Solutions applications schedule.

Frequency of Application Apply the Rhodos solution with every watering to ensure a constant supply of essential nutrients.

System Compatibility Rhodos is formulated for use in all types of growing systems, including hydroponics, aeroponics, and soil/ Coco-based setups.

STORAGE Store in original closed container. Store in a dry and cool place temp between 8-27 °C. Five-year shelf life from manufacturer date if stored properly.

2,5 kg. 5 kg. 10 kg.

Bulk packaging on request.
